Style. Spirit. Space to spare.

Enjoy them all in C-MAX Hybrid and C-MAX Energi Plug-In Hybrid. With a versatile interior, ready for people or cargo, you’ve found the perfect place to enjoy new SYNC® 3 – our next generation of voice-activated technology.¹ Fuel-efficient.² Fun to drive. It’s easy to go further in C-MAX.
Maximize every ride.

“Our C-MAX was a joy to push through winding roads and we loved the smooth ride and hushed cabin,” said editors at kbb.com. “In around-town driving, the tall roof and expansive side glass of C-MAX provide excellent visibility, while the raised seats give a commanding view ahead.”

Truly engaging to drive, both C-MAX Hybrid and C-MAX Energi Plug-In Hybrid offer 188 combined horsepower. Transfer this power and 129 lb.-ft. of torque to the road with an eCVT (electronically controlled continuously variable transmission).

Switching seamlessly between its 88-kW electric traction motor and 2.0L Atkinson-cycle I-4 gasoline engine, the C-MAX power-split hybrid architecture is powered by a state-of-the-art, lithium-ion battery.

All-electric mode works at speeds of up to 85 mph, since C-MAX engages its engine only as needed to power the battery and to enhance performance. An invigorating drive. Excellent efficiency. The 2016 C-MAX Hybrids bring it all together.
Choose to plug in and plus up.

C-MAX Energi is a progressive hybrid that gives you the choice to plug in or not. As you drive, it can decide whether to run on battery power or to turn on its gas engine as needed. Plugging in helps you plus up to an EPA-estimated 95 city MPGe, an all-electric driving range of 19 miles and gas-plus-electric driving range of 550 miles.¹²

**Recharge at home** in about 7 hours using its LED-illuminated charge port and the standard 120V convenience charge cord. Shorten that time to about 2.5 hours using a Ford-recommended AeroVironment™ 240V home charging station³ or 240V TurboCord.⁴ The UL-listed, weather-resistant, portable charging station is easy to take with you if you decide to relocate. A hard-wired station³ is also available.

**Easily monitor and schedule charging,** at home or at one of the growing number of public charging stations near you, with the MyFord® Mobile app and website (myfordmobile.com). Both feature a charging station locator powered by PlugShare.⁸

¹ EPA-estimated rating of 95 city/81 hwy/88 combined MPGe. Actual mileage will vary. MPGe is the EPA equivalent measure of gasoline fuel efficiency for electric mode operation. ² EPA-estimated rating of 40 city/36 hwy/38 combined mpg, 14.0-gallon fuel tank; 19 miles electric. Range calculation based on www.fueleconomy.gov. Actual range varies with conditions such as external elements, driving behaviors, vehicle maintenance and lithium-ion battery age. ³ Available feature. To begin the process, call 1-888-219-6747 or visit evsolutions.com/ford. Charging stations are available with or without full installation services by AeroVironment. ⁴ MyFord Mobile subscription complimentary for 5 years from the vehicle sale date as recorded by the dealer. Subscription fees apply after 5 years. MyFord Mobile requires a compatible 2.5G independent cellular network. Evolving technology and cellular networks may affect future availability and functionality.
