This *Quick Reference Guide* is a summary of basic vehicle operations. It contains brief descriptions of fundamental operations so you can locate and use the vehicle’s main equipment quickly and easily.

The *Quick Reference Guide* is not intended as a substitute for the *Owner’s Manual* located in the vehicle’s glove box. We strongly encourage you to review the *Owner’s Manual* and supplementary manuals so you will have a better understanding of the vehicle’s capabilities and limitations.

Your dealership and the entire staff of Toyota Motor Sales, U.S.A., Inc. wish you many years of satisfied driving in your new RAV4.

---

**A word about safe vehicle operations**

This *Quick Reference Guide* is not a full description of RAV4 operations. Every RAV4 owner should review the *Owner’s Manual* that accompanies this vehicle.

Pay special attention to the boxed information highlighted in color throughout the *Owner’s Manual*. Each box contains safe operating instructions to help you avoid injury or equipment malfunction.

All information in this *Quick Reference Guide* is current at the time of printing. Toyota reserves the right to make changes at any time without notice.
OVERVIEW

Instrument panel

Steering wheel controls

Type A

1. Steering wheel audio controls
2. Telephone controls
3. Voice command button
4. Multi-Information Display switch
5. Cruise control
6. Engine ignition switch (standard key)
7. Tilt and telescopic steering release
8. Headlight, turn signal, fog light and auto high beam controls
9. Wiper and washer controls
10. Engine ignition switch (Smart Key)
11. Emergency flasher switch
12. Clock
13. Engine immobilizer indicator
14. Front passenger occupant classification indicator
15. Lane Departure Alert switch
17. Air Conditioning controls
18. Outside mirror/Rear window defogger switch
19. Power back door (liftgate) main switch
20. 12V DC power outlet
21. USB/AUX port
22. Seat heater switches
23. Driving mode select switches
24. Tire pressure warning reset switch
25. Fuel filler door opener
26. Hood lock release lever
27. Power back door (liftgate) switch
28. All-Wheel Drive lock switch (AWD models)
29. Blind Spot Monitor (BSM) with Rear Cross Traffic Alert (RCTA) main switch
30. Vehicle Stability Control (VSC) OFF switch
31. Instrument panel light control
32. Outside mirror controls

Type B

1. With manual Air Conditioning system
2. With automatic Air Conditioning system

1. If equipped
2. For details, refer to the Owner’s Manual
**OVERVIEW**

**Instrument cluster**

1. Tachometer
2. Service indicator and reminder
3. Speedometer
4. Fuel gauge
5. Automatic Transmission shift position/shift range indicator
6. Multi-Information Display

**Indicator symbols**

- **Brake**
  - Brake system warning
  - Driver/Passenger seat belt reminder (alarm will sound if speed is over 12 mph)
  - Charging system warning
  - Low engine oil pressure warning
  - Malfunction/Check Engine indicator
  - Low fuel level warning
  - Engine oil replacement reminder
  - Open door warning
  - Airbag warning
  - Automatic Transmission fluid temperature warning
  - Low Tire Pressure Warning
  - Dynamic Torque Control AWD system warning

- **ABS**
  - Anti-lock Brake System warning
  - Smart Key system indicator
  - Traction Control OFF indicator
  - Blind Spot Monitor warning
  - Blind Spot Monitor outside mirror indicators
  - Theft deterrent/Engine immobilizer system indicator
  - Eco Driving Indicator
  - ECO mode indicator
  - SPORT mode indicator
  - High coolant temperature warning
  - Lane Departure Alert (LDA) warning

- **Vehicle Stability Control (VSC) OFF indicator**
- **Slip indicator**
- **AUTO Limited Slip Differential indicator**
- **All-Wheel Drive lock indicator**
- **Vehicle Stability Control (VSC) OFF indicator**
- **Slip indicator**
- **AUTO Limited Slip Differential indicator**
- **All-Wheel Drive lock indicator**
- **Vehicle Stability Control (VSC) OFF indicator**
- **Slip indicator**
- **AUTO Limited Slip Differential indicator**
- **All-Wheel Drive lock indicator**

1 If indicator does not turn off within a few seconds of starting engine, there may be a malfunction. Have vehicle inspected by your Toyota dealer.

2 For details, refer to “All-wheel drive lock switch,” Section 4-5, 2015 Owner’s Manual.

3 The indicator flashes to indicate that the system is operating.

4 Light flashes in yellow to indicate a malfunction. Light flashes quickly in green to indicate that the steering lock has not been released.
**Keyless entry**

Beep sound can be switched ON or OFF. Refer to the Owner’s Manual for more details.

### Locking

<table>
<thead>
<tr>
<th>Without Smart Key system</th>
<th>With Smart Key system</th>
</tr>
</thead>
<tbody>
<tr>
<td>Rear lift back hold button not equipped on all models</td>
<td>Push [ ] [ ]</td>
</tr>
</tbody>
</table>

### Unlocking

<table>
<thead>
<tr>
<th>Without Smart Key system</th>
<th>With Smart Key system</th>
</tr>
</thead>
<tbody>
<tr>
<td>Rear lift back hold button not equipped on all models</td>
<td>Push ONCE: Driver door TWICE: All doors</td>
</tr>
</tbody>
</table>

**NOTE:** If a door is not opened within 60 seconds of unlocking, all doors will relock for safety.

### Power back door (Liftgate) (if equipped)

<table>
<thead>
<tr>
<th>Without Smart Key system</th>
<th>With Smart Key system</th>
</tr>
</thead>
<tbody>
<tr>
<td>Push and hold [ ] [ ]</td>
<td></td>
</tr>
</tbody>
</table>

### Panic button

Push and hold [ ] [ ]

**Smart Key system (if equipped)**

#### Start function

- Green indicator ON
- Carrying
- Depress brake pedal Push

**NOTE:** Gear shift lever must be in Park and brake pedal depressed.

#### Power (without starting engine)

Without depressing the brake pedal, pressing the engine switch will change the operation mode in succession from:

- **ACCESSORY** Accessories such as the radio will operate.
- **ON** Power ON; the engine not running.
- **OFF** All systems OFF.

#### Locking operation

- Front door lock
  - Touch
- Front door unlock*
  - Grasp

**Unlocking operation**

- Carry remote to lock
- Carry remote to unlock

**Back door (Liftgate) lock/unlock**

- Carry remote to lock/unlock

* Driver door unlocking function can be programmed to unlock driver door only, or all doors. Grasping passenger door handle will unlock all doors.

**NOTE:** Doors may also be locked/unlocked using remote.
OVERVIEW

Fuel tank door release and cap

Driver seat

Pull up

Turn to open

Store

NOTE: Tighten until one click is heard. If the cap is not tightened enough, Check Engine “*” indicator may illuminate.

Hood release

Pull

Engage support rod

Pull up latch and raise hood

Engine maintenance

1. Engine coolant reservoir
2. Engine oil filler cap
3. Engine oil level dipstick
4. Windshield and rear window washer fluid tank

NOTE: Regularly scheduled maintenance, including oil changes, will help extend the life of your vehicle and maintain performance. Please refer to the “Warranty Maintenance Guide.”
FEATURES/OPERATIONS

**Auto lock/unlock**
Automatic door locks can be programmed to operate in four different modes, or turned OFF.
- Doors lock when shifting from Park.
- Doors unlock when shifting into Park.

**Vehicles without Smart Key system**
- Doors unlock when the engine switch is set from “ON” to “ACC” or “LOCK” and driver’s door is opened.

**Vehicles with Smart Key system**
- Doors lock when the vehicle speed goes above approximately 12 mph.
- Doors unlock when the engine switch is set to OFF and driver’s door is opened.

Refer to the Owner’s Manual for more details.

**Automatic Transmission**

* The engine switch must be “ON” and the brake pedal depressed to shift from Park.

**“S” (Sequential) mode**
Shift the shift lever to “S” position from “D” position.

+: Upshift (push and release)
-: Downshift (pull and release)

Downshifting increases power going uphill, or provides engine braking downhill.
For best fuel economy during normal driving conditions, always drive with the shift lever in the “D” position.

**Parking brake**

**Set**
- Pull

**Release**
- (1) Pull slightly
- (2) Push
- (3) Lower

**All Wheel Drive Lock** (AWD models)

Push the switch to ensure that the engine torque is applied to the four wheels.

**NOTE:** Should ONLY be used when wheel spinning occurs on loose or unpaved surfaces.

Refer to the Owner’s Manual for more details.

**Seats-Head restraints**

- Front seats
- Rear seats
- Rear outboard seats

Lock release button
**Seat adjustments-Front**

1. Seat position (forward/backward)
2. Height crank (driver side only)
3. Seatback angle
4. Seat position, cushion angle and height
5. Lumbar support

**Seat adjustments-Rear**

- Lean back
- Pull up

---

**Features/Operations**

### Lights & turn signals

#### Headlights

- **Type A**
  - Headlights
  - Parking lights
  - Auto*
  - Off
- **Type B**
  - Headlights
  - Parking lights
  - DRL ON
  - Off

- **Low beam**
- **High beam**
- **High beam flasher**

#### Daytime Running Light system (DRL)
Automatically turns on the headlights at a reduced intensity.

- **Automatic On/Off**
  - The side marker, parking, tail, license plate, instrument panel and headlights turn on and off automatically
- **Automatic Off**
  - Automatically turns lights off after a delay of 30 seconds, or when the lock switch on remote is pushed after all the doors are locked.
- **Automatic High Beam**
  - High Beam automatically turn on or off high beams as necessary.

1 If equipped.

#### Turn signals

- Right turn
- Lane change¹
- Lane change²
- Left turn

1 The right hand signals will flash three times.
2 The left hand signals will flash three times.

#### Fog lights (if equipped)

- Turn

Front fog lights come on only when the headlights are on low beam.
**Door-Power back (Liftgate) (if equipped)**

In the Instrument panel:
- Push and hold to open or close.

**Back door (Liftgate) (close only)**
- Push and hold to open.
- Push and hold again to close.

**Back door (Liftgate) (open only)**
- Push to open.

**To set adjustable height, please refer to the Owner’s Manual for complete details.**

**NOTE:** If battery is disconnected, the power back door needs to be reinitialized. Refer to the Owner’s Manual for more details.

**Programmable power liftgate**

1. When the liftgate reaches the desired height, push the rear liftgate close-button (on the door jam of the liftgate) once. Press and hold the button until it beeps 4 times.
2. To reset the height, with the liftgate open and not moving, press and hold the rear liftgate close-button until it beeps 4 times, and continue to hold until it beeps again - then let go. Push the same button to close the liftgate. When you next open the liftgate it will open to the maximum height.

**Programmable power liftgate (continued)**

3. The height can also be set through the “Setup” screen on the audio display.
   - Setup > Vehicle Customization > Other Vehicle Settings > Power Back Door Opening Adjust. Through this screen, there are 5 height options to choose from.

**NOTE:** If the liftgate has stopped operating, check inside the glove box, on the left side, to ensure the PWR DOOR OFF button has not been pushed.

**Door non-power (Liftgate)**

To open the liftgate, push up the release and pull the door to raise it.

**Windshield wipers & washers**

**Front**
- Adjust frequency
- Single wipe
- Interval wipe
- Slow
- Fast
- Pull to wash and wipe

**Rear**
- Wash and wipe
- Interval wipe

**Note:** Intermittent windshield wiper frequency adjustment Rotate to increase/decrease wipe frequency.
OVERVIEW

FEATURES/OPERATIONS

Windows-Power

Driver side

Automatic operation - automatic up/down\(^1\) (driver side only) Push the switch completely down or pull it completely up and release to fully open or close. To stop the window partway, operate the switch in the opposite direction.

Window lock switch Deactivates all passenger windows. Driver’s window remains operable.

\(^1\) If equipped

Moonroof (if equipped)

Sliding operation

Push once to open partway; again to open completely.

Recommended open position to minimize wind noise

Tilting operation

NOTE: If battery is disconnected, the moonroof needs to be reinitialized. Refer to the Owner’s Manual for more details.

Door locks

Unlock

Lock

iPod®/USB/AUX port

iPod®/USB port

By connecting a USB-compatible portable audio device or USB memory to the USB port, you can listen to music from the portable audio device or USB memory through the vehicle’s speaker system.

AUX port

By inserting a mini plug into the AUX port, you can listen to music from a portable audio device through the vehicle’s speaker system while in AUX mode.

Tilt and telescopic steering wheel

Lock release lever

Hold wheel, push lever down, set angle and length, and return lever.

NOTE: Do not attempt to adjust while the vehicle is in motion.
Steering wheel switches and Telephone controls (Bluetooth®)

1. **“A V”** Use to search within the selected audio medium (radio, CD, iPod®, etc.).
2. **“MODE”** Push to turn audio ON and select an audio mode. Push and hold to turn the audio OFF.

Bluetooth® technology allows dialing or receipt of calls without taking hands from the steering wheel or using a cable to connect the compatible telephone and the system.

Refer to page 18 for Bluetooth Pairing instructions or to “Bluetooth® audio/phone,” Section 5-2 in the Owner’s Manual, for more information about phone connections and compatibility.

Audio

**Type 1 - Entune Audio (LE)**

- Push to turn ON/OFF
- Push to display audio screen
- Push to display telephone option screen

**Type 2 - Entune Audio Plus (LE/XLE) (additional functions)**

**Type 3 - Entune Premium Audio with Navigation and App Suite (XLE/LTD) (additional functions)**

Limited models may be equipped with the JBL upgrade in this unit.

1. **AUDIO Button**
   Access to audio functions.

2a. **APPS Button**
   Access to traffic and weather

2b. **APPS Button**
   Access to Entune® App Suite, sports, stocks, news, traffic and weather

3. **HOME Button**
   Access to Home screen.

HOME SCREEN - the home screen offers a two panel and a three panel layout. Information and layout will vary depending on selected set up.

Quick Tip - The USB and AUX port location and design are different depending on the vehicle. For details, see Page 17.
Traffic

The Traffic App displays a scrollable map showing local traffic in 3 colors. Traffic conditions are displayed in red, yellow and green for heavy, moderate or light traffic conditions. Use ▲ or ▼ arrows to scroll the map up or down.

Weather

The Weather App options show current weather and recently checked locations weather. You can also search for a weather forecast by national or local cities.

Always drive safely, obey traffic laws & focus on the road while driving. Availability and accuracy of the information provided by HD services is dependent upon many factors. Services not available in every city or roadway. Use common sense when relying on information provided. Seat heaters (if equipped)

Air Conditioning/Heating

Dual Zone Automatic Climate Control

1. Temperature selector (driver side)
2. Automatic climate control ON
   Adjust the temperature setting, and airflow vents and fan will adjust automatically.
3. Micro dust and pollen filter ON/OFF
4. Windshield defogger
5. Synchronizes driver, front passenger and rear temperature settings
6. Temperature selector (front passenger side)
7. Air Conditioning ON/OFF
8. Outside mirror1/ Rear window defogger
9. Airflow vent
   In “°C” or “°F” mode, use fresh air (“vent” indicator OFF) to reduce window fogging.
10. Fan speed
11. Recirculate cabin air (fresh air when OFF)
12. Climate control OFF

1 If equipped

Manual Air Conditioning

1. Airflow vent
   In “°C” or “°F” mode, use fresh air (“vent” indicator OFF) to reduce window fogging.
2. Fan speed
3. Temperature selector
4. Air Conditioning ON/OFF
5. Select for maximum cooling.
6. Outside rearview mirror1/ Rear window defogger
7. Recirculate cabin air (fresh air when OFF)

1 If equipped

Clock

H- Hour set
M- Minute set

Light control-Instrument panel

With the dial turned fully up, instrument panel lights will not dim when the headlights are turned ON.
**Power outlets-12V DC**

**NOTE:** Designed for car accessories. Engine switch must be in the “ACC” or “ON” position to be used.

**Vehicle Stability Control (VSC) OFF button**

The VSC OFF button is used to switch between modes related to the TRAC, VSC and Auto LSD functions (2WD models.)

Refer to Section 4-5 of the Owner’s Manual for more information.

**Cruise control**

**Turning system ON/OFF**

**Functions**

1 The set speed may also be cancelled by depressing the brake pedal.
2 The set speed may be resumed once vehicle speed exceeds 25 mph.

Refer to the Owner’s Manual for more details.

**Multi-Information Display**

Push “DISP” to scroll through the following information screens:

1. Odometer
2. Trip meters “A” and “B”
3. Current fuel consumption
4. Average fuel consumption
5. Average vehicle speed
6. Driving range
Blind Spot Monitor (BSM) with Rear Cross Traffic Alert (RCTA) (if equipped)

Blind Spot Monitor (BSM) uses an indicator light in the outside mirror to alert the driver to a vehicle in the blind spot. When backing up the vehicle, Rear Cross Traffic Alert (RCTA) uses an indicator light in the outside mirror and an audible sound to alert the driver if another vehicle is approaching from the left or right.

Refer to the Owner's Manual for more details on this system before attempting to use it.

Lane Departure Alert (LDA)

The Lane Departure Alert recognizes the visible lane markers using a camera as a sensor and alerts the driver with beeping and flashing indicators when the vehicle deviates from its lane.

Seat belts

If belt is fully extended, then retracted even slightly, it cannot be re-extended beyond that point, unless fully retracted again. This feature is used to help hold child restraint systems securely.

To find more information about seat belts, and how to install a child restraint system, refer to the Owner's Manual.

Tire Pressure Monitoring (warning) System

After adjusting tire pressures, or after tires have been rotated or replaced, turn the engine switch to "ON" and press and hold the "SET" button until indicator blinks three times. Let the vehicle sit for a few minutes to allow initialization to complete.

Refer to the load label on the door jamb or the Owner's Manual for tire inflation specifications.

If the tire pressure indicator flashes for more than 60 seconds and then remains on, take the vehicle to your local Toyota dealer.

NOTE: The warning light may come on due to temperature changes or changes in tire pressure from natural air leakage. If the system has not been initialized recently, setting the tire pressures to factory specifications should turn off the light.
SAFETY AND EMERGENCY FEATURES

Doors-Child safety locks

Moving the lever downward will allow the door to be opened only from the outside.

Seat belts-Shoulder belt anchor

Push up or squeeze lock release to lower

Spare tire & tools

Tool location

Removing the spare tire

(1) Remove the rear deck board.
(2) Lessen the center fastener that secures the spare tire.

Refer to the Owner’s Manual for tire changing and jack positioning procedures.

Star Safety System™

All new Toyota vehicles come standard with the Star Safety System™, which combines Vehicle Stability Control (VSC), Traction Control (TRAC), Anti-lock Braking System (ABS), Electronic Brake-force Distribution (EBD), Brake Assist (BA) and Smart Stop Technology (SST).

Vehicle Stability Control (VSC)

VSC helps prevent loss of traction during cornering by reducing engine power and applying brake force to selected wheels.

Toyota’s VSC monitors steering angle and the direction your vehicle is traveling. When it senses that the front or rear wheels begin to lose traction, VSC reduces engine power and applies braking to selected wheels. This helps restore traction and vehicle control.

Traction Control (TRAC)

VSC helps prevent loss of traction during cornering by reducing engine power, and Traction Control helps maintain traction on loose gravel and wet, icy, or uneven surfaces by applying brake force to the spinning wheel(s).

Toyota’s TRAC sensors are activated when one of the drive wheels starts to slip. TRAC limits engine output and applies the brakes to the spinning wheel. This transfers power to the wheels that still have traction to help keep you on track.

Anti-Lock Brake System (ABS)

ABS helps prevent brakes from locking up by “pulsing” brake pressure to each wheel. This limits brake lockup and helps provide directional control for the current road conditions.

Toyota’s ABS sensors detect which wheels are locking up and limits wheel lockup by “pulsing” each wheel’s brakes independently. Pulsing releases brake pressure repeatedly for fractions of a second. This helps the tires attain the traction that current road conditions will allow, helping you to stay in directional control.

Electronic Brake Force Distribution (EBD)

Toyota’s ABS technology has Electronic Brake-force Distribution (EBD) to help maintain control and balance when braking. Abrupt stops can cause a vehicle to tilt forward, reducing the braking power of the rear wheels. EBD responds to sudden stops by redistributing brake force to enhance the braking effectiveness of all four wheels.

Brake Assist (BA)

Brake Assist is designed to detect sudden or “panic” braking, and then add braking pressure to help decrease the vehicle’s stopping distance. When there’s only a split second to react, Brake Assist can add additional brake pressure more quickly than just the driver alone can.
There are two types of Toyota floor mats: carpeted and all-weather. Each vehicle has model-specific floor mats. Installation is easy.

To keep your floor mat properly positioned, follow these steps:

- Only use floor mats designed for your specific model.
- Use only one floor mat at a time, using the retaining hooks to keep the mat in place.
- Install floor mats right side up.

Smart Stop Technology (SST)

Smart Stop Technology automatically reduces driving torque when the accelerator and brake pedals are pressed simultaneously under certain conditions.

SST engages when the accelerator is depressed first and the brakes are applied firmly for longer than one-half second at speeds greater than five miles per hour.

SST doesn’t engage if the brake pedal is depressed before the accelerator pedal, allowing vehicles to start on a steep hill and safely accelerate without rolling backward.

Floor mat installation

There are two types of Toyota floor mats: carpeted and all-weather. Each vehicle has model-specific floor mats. Installation is easy.

To keep your floor mat properly positioned, follow these steps:

- Only use floor mats designed for your specific model.
- Use only one floor mat at a time, using the retaining hooks to keep the mat in place.
- Install floor mats right side up.
To begin the Bluetooth® Pairing process, press the HOME button on the faceplate of your Toyota Vehicle Entune™ Multimedia Head Unit.¹

**Bluetooth® Pairing for Android® phone and Entune™ touch screen system**

Pairing your phone is the first step in connecting with your Toyota for hands-free calling and for audio streaming via Bluetooth. This pairing process is quick and easy: all Android mobile digital devices have Bluetooth integrated; all you have to do is setup the phone and multimedia system to “talk” to each other and form a connection.²

**Initiate Bluetooth® on your Android®**

1. **STEP 1**
   From your APPS SCREEN, select SETTINGS

2. **STEP 2**
   Select CONNECTIONS and select BLUETOOTH

3. **STEP 3**
   Ensure BLUETOOTH is ON

4. **STEP 4**
   Select YOUR PHONE DEVICE to make it discoverable.

5. **STEP 5**
   While your Android device is seeking out Bluetooth devices, proceed to your Entune Multimedia Head Unit on your Toyota vehicle.

6. **STEP 6**
   On your Toyota Vehicle Entune Multimedia Head Unit, Select SETUP BUTTON on the Home Screen.

7. **STEP 7**
   Select BLUETOOTH

8. **STEP 8**
   Select ADD, to add your phone device

9. **STEP 9**
   Back on your smartphone, you can now select your TOYOTA VEHICLE in Bluetooth Settings.
   
   You may need to enter the provided Bluetooth PIN on your phone.

10. **STEP 10**
    Your smartphone is now paired with Entune.

11. **STEP 11**
    Once paired, Entune will attempt to connect audio and contacts on your phone.

---

¹ To determine which head unit is installed in your vehicle, refer to page 19.

² Some Android devices may have slightly different SETTINGS screen layout depending on manufacturer of device and Android OS version.
Pairing your phone is the first step in connecting with your Toyota for hands-free calling and for audio streaming via Bluetooth. This pairing process is quick and easy: all iPhone mobile digital devices have Bluetooth integrated; all you have to do is setup the phone and multimedia system to “talk” to each other and form a connection. Bluetooth Pairing Guide for select 2015 models.

**STEP 1**
From the HOME SCREEN, select SETTINGS

**STEP 2**
Select BLUETOOTH

**STEP 3**
Ensure BLUETOOTH is ON

**STEP 4**
Your iPhone will seek out Bluetooth devices while remaining discoverable

**STEP 5**
While your iPhone device is seeking out Bluetooth devices, proceed to your Entune Multimedia Head Unit on your Toyota vehicle.

**CONTINUE ON THE NEXT PAGE...**

---

**Initiate Bluetooth® on your Entune™ Multimedia Head Unit (continued)**

Using your smartphone, you will need to allow Entune access to your messaging and contacts. It is recommended to check the “Don’t ask again” box, so as not to have to press OK every time the phone makes a Bluetooth connection with your Toyota.

**STEP 12**
A confirmation will appear once your phone has been paired and connected.

**STEP 13**

Disclosures
This brochure is accurate at the time of print; content subject to change based on periodic multimedia software updates.

1. Concentrating on the road should always be your first priority while driving. Do not use the hands-free phone system if it will distract you.

2. The Bluetooth word mark and logos are registered trademarks owned by Bluetooth SIG, Inc. and any use of such marks by Toyota is under license. A compatible Bluetooth enabled phone must first be paired. Phone performance depends on software, coverage & carrier.

3. Android is a trademark of Google, Inc. All rights reserved. Google is not a participant in or sponsor of this promotion.

4. Apps/services vary by phone/carerrier; functionality depends on many factors. Select apps use large amounts of data; you are responsible for charges. Apps & services subject to change. See Toyota.com/entune for details.
