This Quick Reference Guide is a summary of basic vehicle operations. It contains brief descriptions of fundamental operations so you can locate and use the vehicle’s main equipment quickly and easily.

The Quick Reference Guide is not intended as a substitute for the Owner’s Manual located in your vehicle’s glove box. We strongly encourage you to review the Owner’s Manual and supplementary manuals so you will have a better understanding of your vehicle’s capabilities and limitations.

Your dealership and the entire staff of Toyota Motor Sales, U.S.A., Inc. wish you many years of satisfied driving in your new Corolla.

A word about safe vehicle operations

This Quick Reference Guide is not a full description of Corolla operations. Every Corolla owner should review the Owner’s Manual that accompanies this vehicle.

Pay special attention to the boxed information highlighted in color throughout the Owner’s Manual. Each box contains safe operating instructions to help you avoid injury or equipment malfunction.

All information in this Quick Reference Guide is current at the time of printing. Toyota reserves the right to make changes at any time without notice.
OVERVIEW

Instrument panel

1. Steering wheel audio controls
2. Paddle shift switches*
3. Telephone controls
4. Voice command button*
5. “DISP” switch
6. Cruise control*
7. Power outside rearview mirror controls
8. Instrument panel light control dial
9. Headlight, turn signal and front fog light* controls
10. Meters
11. Drive monitor display* or Multi-Information Display*
12. Wiper and washer controls
13. Emergency flasher button
14. Clock

15. Audio system*, multimedia system* or navigation system*/Rearview monitor*
16. Air Conditioning controls
17. Shift lever
18. Parking brake
19. Engine switch*
20. Key ignition*
21. Tilt and telescopic steering control
22. Hood lock release lever
23. Tire Pressure Monitoring (warning) System reset

* If equipped

**Instrument cluster**

- Type A
- Type B

### Indicator symbols

- **BRAKE**
  - Brake system warning

- **Seat belt reminder**
  - (alarm will sound if speed is over 12mph)

- **Charging system warning**

- **“AIRBAG ON/OFF” indicator**

- **Electric power steering warning**

- **Malfunction/Check Engine indicator**

- **Low fuel level warning**

- **Open door warning**

- **SRS airbag warning**

- **Low Tire Pressure Warning**

- **Headlight high beam indicator**

- **Turn signal indicator**

- **Slip indicator**

- **Cruise control indicator**

- **Vehicle Stability Control OFF indicator**

- **Maintenance/Service required indicator**

- **Traction control OFF indicator**

- **High engine coolant temperature warning**

- **Master warning**

- **Sport mode indicator**

- **ECO driving indicator light**

- **“ECO MODE” indicator**

- **Smart key system indicator**

- **Security indicator**

---

1 If indicator does not turn off within a few seconds of starting engine, there may be a malfunction. Have vehicle inspected by your Toyota dealer.
**Keyless entry (if equipped)**

**Locking operation**

<table>
<thead>
<tr>
<th>Type A</th>
<th>Type B</th>
</tr>
</thead>
<tbody>
<tr>
<td><img src="image1" alt="Keyless entry (if equipped) Type A" /></td>
<td><img src="image2" alt="Keyless entry (if equipped) Type B" /></td>
</tr>
</tbody>
</table>

- **Push ONCE:** Driver door
- **TWICE:** All doors

**Unlocking operation**

<table>
<thead>
<tr>
<th>Type A</th>
<th>Type B</th>

</tbody>
</table>

- **Push ONCE:** Driver door
- **TWICE:** All doors

**Trunk lid**

<table>
<thead>
<tr>
<th>Type A</th>
<th>Type B</th>
</tr>
</thead>
<tbody>
<tr>
<td><img src="image1" alt="Keyless entry (if equipped) Type A" /></td>
<td><img src="image2" alt="Keyless entry (if equipped) Type B" /></td>
</tr>
</tbody>
</table>

- **Push and hold**

**Panic button**

- **Push and hold**

**NOTE:** If a door is not opened within 60 seconds of unlocking, all doors will relock for safety.

**Smart Key system (if equipped)**

**Start function**

**Vehicles without a Multi-Information Display**

- **Push**

**Vehicles with a Multi-Information Display**

- **Push**

**NOTE:** Carry the electronic key to enable start function. Gear shift lever must be in Park and brake pedal depressed.

**Power (without starting engine)**

Without depressing the brake pedal, pressing the engine switch will change the operation mode in succession from:

<table>
<thead>
<tr>
<th>ACC</th>
<th>Accessories such as the radio will operate.</th>
</tr>
</thead>
<tbody>
<tr>
<td>ON</td>
<td>Power ON; the engine not running.</td>
</tr>
<tr>
<td>OFF</td>
<td>All systems OFF.</td>
</tr>
</tbody>
</table>

**Locking operation**

<table>
<thead>
<tr>
<th>Front door lock</th>
</tr>
</thead>
<tbody>
<tr>
<td>Touch</td>
</tr>
<tr>
<td>Carry remote to lock</td>

</tbody>
</table>

**Unlocking operation**

<table>
<thead>
<tr>
<th>Front door unlock*</th>
</tr>
</thead>
<tbody>
<tr>
<td>Grasp</td>
</tr>
<tr>
<td>Carry remote to unlock</td>
</tr>
</tbody>
</table>

**Trunk open**

- **Push**

* Driver door unlocking function can be programmed to unlock driver door only, or all doors. Grasping front passenger door handle will unlock all doors.

**NOTE:** Doors may also be locked/unlocked using remote.
**OVERVIEW**

### Fuel tank door release and cap

- **Pull**
- **Store**
- **Turn to close**

**NOTE:** Tighten until one click is heard. If the cap is not tightened enough, Check Engine “!” indicator may illuminate.

### Hood release

- **Pull**
- **Pull up latch and raise hood**
- **Turn to open**

### Engine maintenance

1. Windshield washer fluid tank
2. Engine oil filler cap
3. Engine oil level dipstick
4. Engine coolant reservoir

**NOTE:** Regularly scheduled maintenance, including oil changes, will help extend the life of your vehicle and maintain performance. Please refer to the “Warranty Maintenance Guide.”
**Features/Operations**

### Automatic Transmission (if equipped)

* The engine switch must be “ON” and the brake pedal depressed to shift from Park.

Downshifting increases power going uphill, or provides engine braking downhill. For best fuel economy during normal driving conditions, always drive with the shift lever in the “D” position.

### Manual Transmission (if equipped)

<table>
<thead>
<tr>
<th>Manual seat</th>
<th>Power seat* (driver side only)</th>
</tr>
</thead>
<tbody>
<tr>
<td><img src="image1.png" alt="Seat adjustments-Front" /></td>
<td><img src="image2.png" alt="Seat adjustments-Front" /></td>
</tr>
</tbody>
</table>

1. Seat position (forward/backward)
2. Height crank (driver side only)
3. Seatback angle
4. Seat position, cushion angle and height
5. Seatback angle

### Continuously Variable Transmission (if equipped)

<table>
<thead>
<tr>
<th>Type A</th>
<th>Type B</th>
</tr>
</thead>
<tbody>
<tr>
<td><img src="image3.png" alt="Automatic Transmission (if equipped)" /></td>
<td><img src="image4.png" alt="Automatic Transmission (if equipped)" /></td>
</tr>
</tbody>
</table>

1. The engine switch must be “ON” and the brake pedal depressed to shift from Park.

### Auto lock/unlock

Automatic door locks can be programmed to operate in two different modes, or turned OFF.

- Doors lock when shifting from Park.
- Doors lock when the vehicle speed is approximately 12 mph or higher.
- Doors unlock when shifting into Park.

**Vehicles without Smart Key system**

- Doors unlock when the engine switch is set from “ON” to “ACC” or “LOCK” and driver’s door is opened.

**Vehicles with Smart Key system**

- Doors unlock when the engine switch is set to OFF and driver’s door is opened.

Refer to the Owner’s Manual for more details.

### Parking brake

Set

Release

(1) Pull slightly
(2) Push
(3) Lower

**Changing gear steps in the M position**

Shift the shift lever to “M” position from “D” position.

+: Upshifting

-: Downshifting

Downshifting increases power going uphill, or provides engine braking downhill. For best fuel economy during normal driving conditions, always drive with the shift lever in the “D” position.
OVERVIEW

FEATURES/OPERATIONS

Seats-folding rear

- Fold down
- Pull

Seats-Head restraints

- Front
- Rear (Type A)
- Rear (Type B)

- Lock release button

Windows-Power

- Driver side

- Up
- Down

Automatically operation (driver’s window only) Push the switch completely down or pull it completely up and release to fully open or close. To stop the window partway, operate the switch in the opposite direction.

Window lock switch Deactivates all passenger windows. Driver’s window remains operable.

Windshield wipers & washers

- Single wipe
- Interval wipe
- Slow
- Fast
- Pull to wash and wipe

Intermittent windshield wiper frequency adjustment (if equipped)
- Increase
- Decrease

Lights & turn signals

Headlights

- Low beam
- High beam
- High beam flasher
- DRL OFF
- Parking lights

- Daytime Running Light system (DRL) Automatically turns on the headlights at a reduced intensity.
- Automatic light cut off system Automatically turns lights off after 30-second delay, or lock switch on remote may be pushed after locking.

Front fog lights (if equipped)

Turn signals

- Right turn
- Lane change*
- Lane change*
- Left turn
- * Move lever partway and release; signal will flash three times

Front fog lights come on only when the headlights are on low beam.
**Power outlet**

The engine switch must be in the “ACC” or “ON” position for use.

**iPod®/USB/AUX port**

By connecting a USB-compatible portable audio device or USB memory to the USB port, you can listen to music from the portable audio device or USB memory through the vehicle’s speaker system.

**AUX port**

By inserting a mini plug into the AUX port, you can listen to music from a portable audio device through the vehicle’s speaker system while in AUX mode.

**Clock**

Adjusts the hour
Round off minutes
Adjusts the minutes

**Moonroof (if equipped)**

**Sliding operation**

Recommended open position to minimize wind noise.

Push once to open partway; again to open completely.

**Tilting operation**

Hold wheel, push lever down, set angle and length, and return lever.

*NOTE: Do not attempt to adjust while the vehicle is in motion.*

**Tilt and telescopic steering wheel**

**Drive monitor display/Multi-Information Display**

1. Engine coolant temperature gauge
2. ECO Driving Indicator Zone Display*  
3. Outside temperature display  
4. Shift position and gear position indicator*  
5. Trip information  
6. Driving monitor  
7. Warning messages

* Except vehicles with Manual Transmission.
### Air Conditioning/Heating

#### Automatic Air Conditioning

1. Automatic climate control ON
   Adjusting the temperature setting will cause the airflow vents, air intake and fan to adjust automatically.
2. Temperature selector
3. Air Conditioning ON/OFF
4. Recirculate cabin air (fresh air when OFF)
5. Fan speed
6. Airflow vent
   - In "aira" or "aira" mode, use fresh air ("aira" indicator OFF) to reduce window fogging.
7. Outside rearview mirror*/Rear defogger
8. Windshield airflow/defogger
9. Climate control OFF
   - If equipped

#### Manual Air Conditioning

1. Airflow vent
   - In "aira" or "aira" mode, use fresh air ("aira" indicator OFF) to reduce window fogging.
2. Temperature selector
   - For quick cooling, turn to MAX A/C position and select recirculated air mode ("aira" indicator ON).
3. Air Conditioning ON/OFF
4. Outside rearview mirror defoggers*/Rear window defogger
5. Recirculate cabin air (fresh air when OFF)
   - If equipped

---

### Seat heaters (if equipped)

1. Driver seat
2. Front passenger seat

### Cruise control (if equipped)

#### Turning system ON/OFF

- System ON/OFF

#### Functions

1. Increase speed
2. Resume

---

1. The set speed may also be cancelled by depressing the brake pedal.
2. The set speed may be resumed once vehicle speed exceeds 25 mph.
Bluetooth® technology allows dialing or receipt of calls without taking hands from the steering wheel or using a cable to connect the compatible telephone and the system.

Refer to Section 5 in the Owner’s Manual, for more information about phone connections and compatibility.
FEATURES/OPERATIONS

**Light control-Instrument panel**

- Brighter
- Darker

**Cup holders-Adjust size**

- Remove divider
- Reinsert divider in different position

**Auxiliary storage**

- Console box
- Upper level box

SAFETY AND EMERGENCY FEATURES

**Seat belts**

- If belt is fully extended, then retracted even slightly, it cannot be re-extended beyond that point, unless fully retracted again. This feature is used to help hold child restraint systems securely.

- To find more information about seat belts, and how to install a child restraint system, refer to the *Owner’s Manual*.

**Seat belts-Shoulder belt adjustment**

- Push up, or squeeze lock release to lower

**Doors-Child safety locks**

- Pushing down the lever will allow the door to be opened only from the outside.
Tire Pressure Monitoring (warning) System

System reset initialization
1. Push and hold “SET” button until the indicator blinks three times.
2. Wait a few minutes to allow initialization to complete.

After adjusting tire pressures, or after tires have been rotated or replaced, turn the engine switch to “ON” and press and hold the “SET” button until indicator blinks three times. Let the vehicle sit for a few minutes to allow initialization to complete.

Refer to the load label on the door jamb or the Owner’s Manual for tire inflation specifications.

If the tire pressure indicator flashes for more than 60 seconds and then remains on, take the vehicle to your local Toyota dealer.

NOTE: The warning light may come on due to temperature changes or changes in tire pressure from natural air leakage. If the system has not been initialized recently, setting the tire pressures to factory specifications should turn off the light.

Spare tire & tools
Tool location

Removing the spare tire
(1) Remove the luggage floor cover.
(2) Remove the tool tray.
(3) Loosen the center fastener that secures the spare tire.

Refer to the Owner’s Manual for tire changing and jack positioning procedures.
SAFETY AND EMERGENCY FEATURES

**Star Safety System™**

All new Toyota vehicles come standard with the Star Safety System™, which combines Vehicle Stability Control (VSC), Traction Control (TRAC), Anti-lock Braking System (ABS), Electronic Brake-force Distribution (EBD), Brake Assist (BA) and Smart Stop Technology (SST).

**Vehicle Stability Control (VSC)**

VSC helps prevent loss of traction during cornering by reducing engine power and applying brake force to selected wheels.

Toyota’s VSC monitors steering angle and the direction your vehicle is traveling. When it senses that the front or rear wheels begin to lose traction, VSC reduces engine power and applies braking to selected wheels. This helps restore traction and vehicle control.

**Traction Control (TRAC)**

VSC helps prevent loss of traction during cornering by reducing engine power, and Traction Control helps maintain traction on loose gravel and wet, icy, or uneven surfaces by applying brake force to the spinning wheel(s).

Toyota’s TRAC sensors are activated when one of the drive wheels starts to slip. TRAC limits engine output and applies the brakes to the spinning wheel. This transfers power to the wheels that still have traction to help keep you on track.

**Anti-Lock Brake System (ABS)**

ABS helps prevent brakes from locking up by “pulsing” brake pressure to each wheel. This limits brake lockup and helps provide directional control for the current road conditions.

Toyota’s ABS sensors detect which wheels are locking up and limits wheel lockup by “pulsing” each wheel’s brakes independently. Pulsing releases brake pressure repeatedly for fractions of a second. This helps the tires attain the traction that current road conditions will allow, helping you to stay in directional control.

**Electronic Brake Force Distribution (EBD)**

Toyota’s ABS technology has Electronic Brake-force Distribution (EBD) to help maintain control and balance when braking. Abrupt stops can cause a vehicle to tilt forward, reducing the braking power of the rear wheels. EBD responds to sudden stops by redistributing brake force to enhance the braking effectiveness of all four wheels.

**Brake Assist (BA)**

Brake Assist is designed to detect sudden or “panic” braking, and then add braking pressure to help decrease the vehicle’s stopping distance. When there’s only a split second to react, Brake Assist can add additional brake pressure more quickly than just the driver alone can.

**Smart Stop Technology (SST)**

Smart Stop Technology automatically reduces engine power when the accelerator and brake pedals are pressed simultaneously under certain conditions.

SST engages when the accelerator is depressed first and the brakes are applied firmly for longer than one-half second at speeds greater than five miles per hour.

SST doesn’t engage if the brake pedal is depressed before the accelerator pedal, allowing vehicles to start on a steep hill and safely accelerate without rolling backward.

**Floor mat installation**

There are two types of Toyota floor mats: carpeted and all-weather. Each vehicle has model-specific floor mats. Installation is easy.

To keep your floor mat properly positioned, follow these steps:

- Only use floor mats designed for your specific model.
- Use only one floor mat at a time, using the retaining hooks to keep the mat in place.
- Install floor mats right side up.

BLUETOOTH® DEVICE PAIRING SECTION
BLUETOOTH DEVICE PAIRING

To begin, please refer to page 18 to determine which audio system your vehicle is equipped with: Type 1, 2, or 3. If your vehicle is equipped with Type 2 or 3 audio, there are specific instructions for each major type of phone (Android, Windows or iPhone) on the following pages.

Press the HOME button on the face plate on Types 2 & 3.

Bluetooth Pairing with Standard non-touch display audio unit (Type 1)*

1. Press “SETUP” button.
2. Turn the right dial and push to select “Bluetooth”.
3. Push to select “Bluetooth Pairing”.
4. Go to your phone and access Bluetooth settings.
5. On your phone, touch the device to be paired.

Bluetooth Pairing for Android phone and Entune touch screen system (Types 2 & 3)

Pairing your phone is the first step in connecting with your Toyota for hands-free calling and for audio streaming via Bluetooth. This pairing process is quick and easy: all Android mobile digital devices have Bluetooth integrated; all you have to do is setup the phone and multimedia system to “talk” to each other and form a connection.*

Initiate Bluetooth on your Android

STEP 1 From your APPS SCREEN, select SETTINGS
STEP 2 Select CONNECTIONS and select BLUETOOTH
STEP 3 Ensure BLUETOOTH is ON
STEP 4 Select YOUR PHONE DEVICE to make it discoverable.
Phone will seek out Bluetooth devices while remaining discoverable.
STEP 5 While your Android device is seeking out Bluetooth devices, proceed to your Entune Multimedia Head Unit on your Toyota vehicle.

Initiate Bluetooth on your Entune Multimedia Head Unit

Once you have Bluetooth® enabled on your phone and ready to pair, you will need to initiate Bluetooth® on your Entune head unit. Please follow the instructions below to pair your Bluetooth enabled phone to your Entune system.

STEP 6 On your Toyota Vehicle Entune Multimedia Head Unit, Select SETUP BUTTON on the Home Screen.
STEP 7 Select BLUETOOTH
STEP 8 Select ADD, to add your phone device
STEP 9 Back on your smartphone, you can now select your TOYOTA VEHICLE in Bluetooth Settings.
STEP 10 Your smartphone is now paired with Entune.
STEP 11 Once paired, Entune will attempt to connect audio and contacts on your phone.

* Some Android devices may have slightly different SETTINGS screen layout depending on manufacturer of device and Android OS version.
Initiate Bluetooth on your Entune Multimedia Head Unit (continued)

**STEP 12**
Using your smartphone, you will need to allow Entune access to your messaging and contacts. It is recommended to check the “Don’t ask again” box, so as not to have to press OK every time the phone makes a Bluetooth connection with your Toyota.

**STEP 13**
A confirmation will appear once your phone has been paired and connected.

**Additional Resources**
If you’re having trouble pairing your phone, Toyota has you covered. You can get more information from the following sources:

- Online Pairing Guide: [www.toyota.com/connect](http://www.toyota.com/connect)
- Your Toyota Owner’s Manual
  Located in the vehicle glovebox
- Toyota Customer Experience Center

Initiate Bluetooth on your Entune Multimedia Head Unit
(iPhone pairing continued)

Once you have Bluetooth® enabled on your phone and ready to pair, you will need to initiate Bluetooth® on your Entune head unit. Please follow the instructions below to pair your Bluetooth enabled phone to your Entune system.

**STEP 6**
Select SETUP BUTTON on the Home Screen.

**STEP 7**
Select BLUETOOTH

**STEP 8**
Select ADD, to add your phone device

**STEP 9**
Back on your smartphone, you can now select your TOYOTA VEHICLE in Bluetooth Settings. You may need to enter the provided Bluetooth PIN on your phone.

**STEP 10**
Your smartphone is now paired with Entune.

**STEP 11**
Once paired, Entune will attempt to connect audio and contacts on your phone.

**STEP 12**
Using your smartphone, you may need to allow Entune access to your messaging and contacts

**STEP 13**
A confirmation will appear once your phone has been paired and connected.
