This *Quick Reference Guide* is a summary of basic vehicle operations. It contains brief descriptions of fundamental operations so you can locate and use the vehicle’s main equipment quickly and easily.

The *Quick Reference Guide* is not intended as a substitute for the *Owner’s Manual* located in your vehicle’s glove box. We strongly encourage you to review the *Owner’s Manual* and supplementary manuals so you will have a better understanding of your vehicle’s capabilities and limitations.

Your dealership and the entire staff of Toyota Motor Sales, U.S.A., Inc. wish you many years of satisfied driving in your new Highlander.

---

**A word about safe vehicle operations**

This *Quick Reference Guide* is not a full description of Highlander operations. Every Highlander owner should review the *Owner’s Manual* that accompanies this vehicle.

Pay special attention to the boxed information highlighted in color throughout the *Owner’s Manual*. Each box contains safe operating instructions to help you avoid injury or equipment malfunction.

All information in this *Quick Reference Guide* is current at the time of printing. Toyota reserves the right to make changes at any time without notice.

- **Cruise control/Cruise control “SET” indicator**
- **LDA (Lane Departure Alert) indicator**
- **Intuitive parking assist indicator**

1. If indicator does not turn off within a few seconds of starting engine, there may be a malfunction. Have vehicle inspected by your Toyota dealer.
2. If this light flashes, refer to “Cruise control,” Section 4-5, 2015 Owner’s Manual.
### Keyless entry

#### Locking operation

<table>
<thead>
<tr>
<th>Without Smart Key system</th>
<th>With Smart Key system</th>
</tr>
</thead>
<tbody>
<tr>
<td><img src="image1" alt="Locking operation icon" /></td>
<td><img src="image2" alt="Locking operation icon" /></td>
</tr>
</tbody>
</table>

- **Without Smart Key system**: Push ONCE: Driver door TWICE: All doors
- **With Smart Key system**: Push

**NOTE:** If a door is not opened within 60 seconds of unlocking, all doors will relock for safety.

#### Unlocking operation

<table>
<thead>
<tr>
<th>Without Smart Key system</th>
<th>With Smart Key system</th>
</tr>
</thead>
<tbody>
<tr>
<td><img src="image1" alt="Unlocking operation icon" /></td>
<td><img src="image2" alt="Unlocking operation icon" /></td>
</tr>
</tbody>
</table>

- **Without Smart Key system**: Push ONCE: Driver door TWICE: All doors
- **With Smart Key system**: Push and hold

**NOTE:** Power back door will not open if glass hatch is open.

### Power liftgate operation

<table>
<thead>
<tr>
<th>Without Smart Key system</th>
<th>With Smart Key system</th>
</tr>
</thead>
<tbody>
<tr>
<td><img src="image1" alt="Power liftgate operation icon" /></td>
<td><img src="image2" alt="Power liftgate operation icon" /></td>
</tr>
</tbody>
</table>

- **Without Smart Key system**: Push and hold
- **With Smart Key system**: Push and hold

**NOTE:** Power back door will not open if glass hatch is open.

### Panic button

- **Push and hold**

### Smart Key system (if equipped)

#### Start function

<table>
<thead>
<tr>
<th><img src="image3" alt="Start function icon" /></th>
</tr>
</thead>
</table>

- **Push**
- **Depress brake pedal**

**NOTE:** Parking brake must be set. Shift lever is set to P.

### Power (without starting engine)

Without depressing the brake pedal, pressing the “ENGINE START STOP” switch will change the operation mode in succession from:

- **ACC**: Accessories such as the radio will operate.
- **ON**: Power ON; the engine not running.
- **OFF**: All systems OFF.

#### Locking operation

<table>
<thead>
<tr>
<th>Front door lock</th>
<th>Front door unlock*</th>
</tr>
</thead>
<tbody>
<tr>
<td><img src="image1" alt="Locking operation icon" /></td>
<td><img src="image2" alt="Unlocking operation icon" /></td>
</tr>
</tbody>
</table>

- **Front door lock**: Push
- **Front door unlock**: Carry remote to lock
- **Unlock**: Grasp

**NOTE:** Driver door unlocking function can be programmed to unlock driver door only, or all doors. Grasping passenger door handle will unlock all doors.

**NOTE:** Doors may also be locked/unlocked using remote.
Fuel tank door release and cap

- **Push**
- **Store**
- **Turn to open**

When the fuel door cannot be opened by pressing the inside switch. Remove the cover inside the luggage compartment and pull the lever.

**NOTE:** Tighten until one click is heard. If the cap is not tightened enough, Check Engine “Ω” indicator may illuminate.

Hood release

- **Pull**
- **Engage support rod (either position may be used)**

Pull up the auxiliary catch lever and raise hood.

Engine maintenance

1. Windshield washer fluid tank
2. Engine oil level dipstick
3. Engine oil filler cap
4. Engine coolant reservoir
5. Battery
6. Brake fluid reservoir

**NOTE:** Regularly scheduled maintenance, including oil changes, will help extend the life of your vehicle and maintain performance. Please refer to the “Warranty & Maintenance Guide.”

Light control-Instrument panel

The brightness level of the meters when the surroundings are bright (day mode) and dark (night mode) can be adjusted individually. However, when in day mode, adjusting the brightness level will also change the brightness level of night mode.
**FEATURES/OPERATIONS**

### Automatic Transmission

*The “ENGINE START STOP”/ignition switch must be “ON” and the brake pedal depressed to shift from Park.*

**“S” (Sequential) mode**

Shift the shift lever to “S” position from “D” position.

+: Upshift (push and release)

-: Downshift (pull and release)

Downshifting increases power going uphill, or provides engine braking downhill. For best fuel economy during normal driving conditions, always drive with the shift lever in the “D” position.

### Door locks

**With Smart Key system**

- Doors lock when shifting from Park.
- Doors lock when the vehicle speed goes above approximately 12 mph.
- Doors unlock when shifting into Park.

**Vehicles with Smart Key system**

- Doors unlock when the “ENGINE START STOP” switch is set to OFF and driver’s door is opened.

Refer to the *Owner’s Manual* for more details.

**Auto lock/unlock**

Automatic door locks can be programmed to operate in two different modes, or turned OFF.

- Doors lock when shifting from Park.
- Doors lock when the vehicle speed goes above approximately 12 mph.
- Doors unlock when shifting into Park.

**Vehicles without Smart Key system**

- Doors unlock when the ignition switch is set from “ON” to “ACC” or “LOCK” and driver’s door is opened.

**Steering lock release**

<table>
<thead>
<tr>
<th>With Smart Key system</th>
<th>Without Smart Key system</th>
</tr>
</thead>
<tbody>
<tr>
<td>Turn Push</td>
<td>Turn Push</td>
</tr>
</tbody>
</table>

**Parking brake**

Set: Depress
Release: Depress again
**Features/Operations**

**Tilt and telescopic steering wheel**

Hold wheel, push lever down, set angle and length, and return lever.

*NOTE: Do not attempt to adjust while the vehicle is in motion.*

**Moonroof (if equipped)**

<table>
<thead>
<tr>
<th>Sliding operation</th>
<th>Tilting operation</th>
</tr>
</thead>
<tbody>
<tr>
<td>Push once to open partway; again to open completely.</td>
<td>Tilt</td>
</tr>
<tr>
<td>Recommended open position to minimize wind noise.</td>
<td>Close</td>
</tr>
</tbody>
</table>

**Panoramic Moonroof (if equipped)**

<table>
<thead>
<tr>
<th>Shade operation</th>
<th>Tilting operation</th>
</tr>
</thead>
<tbody>
<tr>
<td>To stop operation partway, quickly slide and release the switch again.</td>
<td>If the moon roof is open, pressing the switch closes it up to the tilt-up position. If the shade is closed past the half-open position when the switch is pressed, it will open up to the half-open position.</td>
</tr>
</tbody>
</table>

**Sliding operation**

The moon roof stops slightly before the fully open position to reduce wind noise and the shade opens fully. Slide the switch again to fully open or close the moon roof.

**Door-Power back (liftgate) (if equipped)**

<table>
<thead>
<tr>
<th>Instrument panel</th>

<td>Close: Push and hold again</td>
</tr>
</tbody>
</table>

**Back door (liftgate) (open only)**

Remote control (without Smartkey) Remote control (with Smartkey)

*NOTE: If battery is disconnected, the power back door needs to be reinitialized. Refer to the Owner’s Manual for more details.*
OVERVIEW

FEATURES/OPERATIONS

Programmable power liftgate

1. When the liftgate reaches the desired height, push the rear liftgate close-button (on the door jam of the liftgate) once. Press and hold the button until it beeps 4 times.
2. To reset the height, with the liftgate open and not moving, press and hold the rear liftgate close-button until it beeps 4 times, and continue to hold until it beeps again - then let go. Push the same button to close the liftgate. When you next open the liftgate it will open to the maximum height.
3. The height can also be set through the “Setup” screen on the audio display. Setup > Vehicle Customization > Other Vehicle Settings > Power Back Door Opening Adjust. Through this screen, there are 5 height options to choose from.

NOTE: If the liftgate has stopped operating, check inside the glove box, on the left side, to ensure the PWR DOOR OFF button has not been pushed.

** For detailed instructions, see Owner’s Manual.

Seat adjustments-Front

  Rotate to increase/decrease wipe frequency.

**Lights & turn signals**

**Front fog lights (if equipped)**

Front fog lights come on only when the headlights are on low beam.

**Headlights**

- **With DRL OFF switch**

- **Daytime Running Light system (DRL) (if equipped)** Automatically turns on the headlights at a reduced intensity.
- **Automatic light cut off system** Lights automatically turn off after a delay of 30 seconds, or when lock switch on remote is pushed after all doors are locked.

**Turn signals**

- Right turn
- Lane change
- Lane change
- Left turn

**Power outlets-12V DC**

- **Instrument panel**
- **Center console**
- **Rear of center console compartment**

The “ENGINE START STOP”/ignition switch must be in the “ACC” or “ON” position to be used.

**Power outlet-120V AC (if equipped)**

- **Rear center console compartment**

The “ENGINE START STOP”/ignition switch must be in the “ON” position to be used.
Multi-Information Display

Type 1

Push "DISP" to change information in the following:
1. Current fuel consumption
2. Driving range
3. Average fuel economy after refill
4. Distance driven since last reset
5. Eco driving indicator

Type 2 (with color display)

Push "meter control switches" to change information in the following:
1. Drive information
2. Navigation system linked display
3. Audio system linked display
4. Dynamic radar cruise control
5. LDA (Lane Departure Alert) status
6. Warning messages
7. Settings display

Windows-Power

Window lock switch

Automatic operation front row or all-position (if equipped) Push the switch completely down or pull it completely up and release to fully open or close. To stop the window partway, operate the switch in the opposite direction.

Window lock switch Deactivates all passenger windows. Driver’s window remains operable.

Steering wheel switches and Telephone controls (Bluetooth®)*

Volume control
2. Up / Down Use to search within the selected audio medium (radio, CD, iPod®, etc.).
3. Start call
4. End call

Bluetooth® technology allows dialing or receipt of calls without taking hands from the steering wheel or using a cable to connect the compatible telephone and the system. Refer to “Bluetooth® audio/phone,” in the Owner’s Manual, for more information about phone connections and compatibility.

* Position of buttons may vary on some vehicles, for more details please refer to the Owner’s Manual
Rear seat entertainment system (if equipped)

1 Audio System
2 Rear seat entertainment system (DVD player)
3 Remote control
4 AV input port

Refer to Section 7-1 of the Navigation System Owner’s Manual for more information.

USB / AUX port

By inserting a mini plug into the USB/AUX port, you can listen to music from a portable audio device through the vehicle’s speaker system while in USB/AUX mode.

Audio

Type 1 - Entune Audio and Entune Audio Plus (LE and LE Plus)*

Type 2 - Entune Premium Audio* with Navigation and App Suite (XLE/LTD) (additional functions)

Limited models may be equipped with the JBL upgrade in this unit.

1 Refer to the “NAVIGATION AND MULTIMEDIA SYSTEM OWNER’S MANUAL”.

* The Entune App Suite may not be pre-installed in your vehicle. In order to activate the Entune App Suite, download and launch the Entune app on your smartphone, connect the phone to the vehicle via Bluetooth®, and open the Entune® App on the phone and sign in. Press the “Apps” button on the audio unit and accept the prompt to update the Apps. The download process will take up to 15 minutes, and when it is complete, follow the on-screen prompts to complete installation. Once the update is complete, the available Apps will be listed on the Apps menu screen.

** LE models have “SETUP” button while LE Plus models have “APPS” button.
Driver Easy Speak (XLE and Limited grades)
This feature utilizes the vehicle's built-in microphone to amplify the driver's voice through the rear speakers. To activate this feature, select “Driver Easy Speak” from the Apps screen on the audio unit. The feature must be turned on every time you enter the vehicle, and automatically turns off when any door (including the liftgate) is opened. There are 7 volume settings.

Traffic*
The Traffic App displays a scrollable map showing local traffic in 3 colors. Traffic conditions are displayed in red, yellow and green for heavy, moderate or light traffic conditions. Use or arrows to scroll the map up or down.

Weather*
The Weather App options show current weather and recently checked locations weather. You can also search for a weather forecast by national or local cities.

Air Conditioning/Heating

1. Automatic climate control ON
   Adjusting the temperature setting will cause the airflow vents, air intake and fan to adjust automatically.
2. Front windshield airflow/defogger
3. Rear windshield airflow/defogger and side mirror defogger
4. Temperature selector dial
5. Recirculate cabin air (fresh air when OFF)
6. Fan speed
7. Airflow mode selector
8. Temperature selector (rear)
9. Rear Air Conditioning ON/OFF
10. “SYNC” button
   Indicator ON: Synchronize temperature settings for driver and all passengers.
   Indicator OFF: Separate temperature settings for driver, front passenger and rear passengers.
11. Air Conditioning ON/OFF

* Available with Entune Audio Plus only.

2. Fan OFF  
3. Airflow mode selector  
4. Temperature selector

### Second row seat heaters (if equipped)

Hi temperature  
Low temperature  
OFF switch

### Clock

Press “H” for Hours and “M” for minutes to set or change the time.
Cruise control

Turning system ON/OFF

CRUISE

System ON/OFF

FUNCTIONS

- Increase speed
- Decrease speed
- Cancel
- Resume
- Set

1. The set speed may also be cancelled by depressing the brake pedal.
2. The set speed may be resumed once vehicle speed exceeds 25 mph.

Garage door opener (HomeLink®)*
(if equipped)

Garage door openers manufactured under license from HomeLink® can be programmed to operate garage doors, estate gates, security lighting, etc.

Refer to “Garage door opener,” Section 6-4 in the Owner’s Manual for more details.

For programming assistance, contact HomeLink® at 1-800-355-3515, or visit http://www.homelink.com.

* HomeLink® is a registered trademark of Gentex Corporation.

Seat belts

If belt is fully extended, then retracted even slightly, it cannot be re-extended beyond that point, unless fully retracted again. This feature is used to help hold child restraint systems securely.

To find more information about seat belts, and how to install a child restraint system, refer to the Owner’s Manual.

Tire Pressure Monitoring (warning) System

After adjusting tire pressures, or after tires have been rotated or replaced, turn the ignition switch to “ON” and press and hold the “SET” button until indicator blinks three times. Let the vehicle sit for a few minutes to allow initialization to complete.

Refer to the load label on the door jamb or the Owner’s Manual for tire inflation specifications.

If the tire pressure indicator flashes for more than 60 seconds and then remains on, take the vehicle to your local Toyota dealer.

NOTE: The warning light may come on due to temperature changes or changes in tire pressure from natural air leakage. If the system has not been initialized recently, setting the tire pressures to factory specifications should turn off the light.
**Seat belts - Shoulder belt anchor**

Push up, or squeeze lock release to lower.

**Doors - Child safety locks**

Moving the lever downward will allow the door to be opened only from the outside.

**Third row center seat belt**

(1) Take the plate out of the holder, and then pull down the seat belt
(2) Push plate “A” into buckle “A” until a click sound is heard.
(3) Push plate “B” into buckle “B” until a click sound is heard.

---

**Spare tire & tools**

**Tool location**

1. Spare tire
2. Jack handles
3. Wheel nut wrench
4. Jack
5. Adapter socket

**Removing the spare tire**

(1) Remove the cover under the center deck board to find the spare tire clamp bolt.
(2) Assemble the jack handle.
(3) Put the socket adapter on the spare tire clamp bolt. Loosen the bolt by turning it counterclockwise with the jack handle.

Refer to the *Owner’s Manual* for tire changing and jack positioning procedures.
SAFETY AND EMERGENCY FEATURES

**Star Safety System™**

All new Toyota vehicles come standard with the Star Safety System™, which combines Vehicle Stability Control (VSC), Traction Control (TRAC), Anti-lock Braking System (ABS), Electronic Brake-force Distribution (EBD), Brake Assist (BA) and Smart Stop Technology (SST).

**Vehicle Stability Control (VSC)**

VSC helps prevent loss of traction during cornering by reducing engine power and applying brake force to selected wheels.

Toyota’s VSC monitors steering angle and the direction your vehicle is traveling. When it senses that the front or rear wheels begin to lose traction, VSC reduces engine power and applies braking to selected wheels. This helps restore traction and vehicle control.

**Traction Control (TRAC)**

VSC helps prevent loss of traction during cornering by reducing engine power, and Traction Control helps maintain traction on loose gravel and wet, icy, or uneven surfaces by applying brake force to the spinning wheel(s).

Toyota’s TRAC sensors are activated when one of the drive wheels starts to slip. TRAC limits engine output and applies the brakes to the spinning wheel. This transfers power to the wheels that still have traction to help keep you on track.

**Anti-Lock Brake System (ABS)**

ABS helps prevent brakes from locking up by “pulsing” brake pressure to each wheel. This limits brake lockup and helps provide directional control for the current road conditions.

Toyota’s ABS sensors detect which wheels are locking up and limits wheel lockup by “pulsing” each wheel’s brakes independently. Pulsing releases brake pressure repeatedly for fractions of a second. This helps the tires attain the traction that current road conditions will allow, helping you to stay in directional control.

**Electronic Brake Force Distribution (EBD)**

Toyota’s ABS technology has Electronic Brake-force Distribution (EBD) to help maintain control and balance when braking. Abrupt stops can cause a vehicle to tilt forward, reducing the braking power of the rear wheels. EBD responds to sudden stops by redistributing brake force to enhance the braking effectiveness of all four wheels.

**Brake Assist (BA)**

Brake Assist is designed to detect sudden or “panic” braking, and then add braking pressure to help decrease the vehicle’s stopping distance. When there’s only a split second to react, Brake Assist can add additional brake pressure more quickly than just the driver alone can.

**Smart Stop Technology (SST)**

Smart Stop Technology automatically reduces engine power when the accelerator and brake pedals are pressed simultaneously under certain conditions.

SST engages when the accelerator is depressed first and the brakes are applied firmly for longer than one-half second at speeds greater than five miles per hour.

SST doesn’t engage if the brake pedal is depressed before the accelerator pedal, allowing vehicles to start on a steep hill and safely accelerate without rolling backward.

**Floor mat installation**

There are two types of Toyota floor mats: carpeted and all-weather. Each vehicle has model-specific floor mats. Installation is easy.

To keep your floor mat properly positioned, follow these steps:

- Only use floor mats designed for your specific model.
- Use only one floor mat at a time, using the retaining hooks to keep the mat in place.
- Install floor mats right side up.
BLUETOOTH® DEVICE PAIRING SECTION
To begin the Bluetooth® Pairing process, press the HOME button on the faceplate of your Toyota Vehicle Entune™ Multimedia Head Unit.¹

**Bluetooth® Pairing for Android® phone and Entune™ touch screen system**

Pairing your phone is the first step in connecting with your Toyota for hands-free calling and for audio streaming via Bluetooth. This pairing process is quick and easy: all Android mobile digital devices have Bluetooth integrated; all you have to do is setup the phone and multimedia system to “talk” to each other and form a connection.²

**Initiate Bluetooth® on your Android®**

1. From your APPS SCREEN, select SETTINGS
2. Select CONNECTIONS and select BLUETOOTH
3. Ensure BLUETOOTH is ON
4. Select YOUR PHONE DEVICE to make it discoverable.
5. While your Android device is seeking out Bluetooth devices, proceed to your Entune Multimedia Head Unit on your Toyota vehicle.
6. On your Toyota Vehicle Entune Multimedia Head Unit, Select SETUP BUTTON on the Home Screen.
7. Select BLUETOOTH
8. Select ADD, to add your phone device
9. Back on your smartphone, you can now select your TOYOTA VEHICLE in Bluetooth Settings.
10. Your smartphone is now paired with Entune.
11. Once paired, Entune will attempt to connect audio and contacts on your phone.

**Initiate Bluetooth® on your Entune™ Multimedia Head Unit**

Once you have Bluetooth enabled on your phone and ready to pair, you will need to initiate Bluetooth on your Entune head unit. Please follow the instructions below to pair your Bluetooth enabled phone to your Entune system.

1. To determine which head unit is installed in your vehicle, refer to page 21.
2. Some Android devices may have slightly different SETTINGS screen layout depending on manufacturer of device and Android OS version.
STEP 12
Using your smartphone, you will need to allow Entune access to your messaging and contacts.

It is recommended to check the “Don’t ask again” box, so as not to have to press OK every time the phone makes a Bluetooth connection with your Toyota.

STEP 13
A confirmation will appear once your phone has been paired and connected.

Additional Resources

If you’re having trouble pairing your phone, Toyota has you covered. You can get more information from the following sources:

Bluetooth® Pairing for iPhone® and Entune™ touch screen system

Pairing your phone is the first step in connecting with your Toyota for hands-free calling and for audio streaming via Bluetooth. This pairing process is quick and easy: all iPhone mobile digital devices have Bluetooth integrated; all you have to do is setup the phone and multimedia system to “talk” to each other and form a connection. Bluetooth Pairing Guide for select 2015 models.

STEP 1
From the HOME SCREEN, select SETTINGS

STEP 2
Select BLUETOOTH

STEP 3
Ensure BLUETOOTH is ON

STEP 4
Your iPhone will seek out Bluetooth devices while remaining discoverable

STEP 5
While your iPhone device is seeking out Bluetooth devices, proceed to your Entune Multimedia Head Unit on your Toyota vehicle.

Initiate Bluetooth® on your Entune™ Multimedia Head Unit

Once you have Bluetooth enabled on your phone and ready to pair, you will need to initiate Bluetooth on your Entune head unit. Please follow the instructions below to pair your Bluetooth enabled phone to your Entune system.

**STEP 6**
Select SETUP BUTTON on the Home Screen.

**STEP 7**
Select BLUETOOTH

**STEP 8**
Select ADD, to add your phone device

**STEP 9**
Back on your smartphone, you can now select your TOYOTA VEHICLE in Bluetooth Settings.

You may need to enter the provided Bluetooth PIN on your phone.

**STEP 10**
Your smartphone is now paired with Entune.

**STEP 11**
Once paired, Entune will attempt to connect audio and contacts on your phone.

**STEP 12**
Using your smartphone, you may need to allow Entune access to your messaging and contacts. Only current iPhone text messages can be viewed on the head unit. iPhone does not allow text message reply.

**STEP 13**
A confirmation will appear once your phone has been paired and connected.

Additional Resources

If you’re having trouble pairing your phone, Toyota has you covered. You can get more information from the following sources:

**Online Pairing Guide:**

Disclosures

This brochure is accurate at the time of print; content subject to change based on periodic multimedia software updates.

1. Concentrating on the road should always be your first priority while driving. Do not use the hands-free phone system if it will distract you.
2. The Bluetooth word mark and logos are registered trademarks owned by Bluetooth SIG, Inc. and any use of such marks by Toyota is under license. A compatible Bluetooth enabled phone must first be paired. Phone performance depends on software, coverage & carrier.
3. Android is a trademark of Google, Inc. All rights reserved. Google is not a participant in or sponsor of this promotion.
4. Apps/services vary by phone/carrier; functionality depends on many factors. Select apps use large amounts of data; you are responsible for charges. Apps & services subject to change. See Toyota.com/entune for details.
BLUETOOTH® DEVICE PAIRING

**Bluetooth® Pairing for Windows Phone® and Entune™ touch screen system**

Pairing your phone is the first step in connecting with your Toyota for hands-free calling and for audio streaming via Bluetooth. This pairing process is quick and easy: all Windows Phone mobile digital devices have Bluetooth integrated; all you have to do is setup the phone and multimedia system to “talk” to each other and form a connection. Bluetooth Pairing Guide for select 2015 models.

**Initiate Bluetooth® on your Windows Phone®**

**STEP 1**
From your APP LIST, select SETTINGS

**STEP 2**
Select BLUETOOTH

**STEP 3**
Ensure BLUETOOTH is ON

**STEP 4**
Phone will seek out Bluetooth devices while remaining discoverable

**STEP 5**
While your iPhone device is seeking out Bluetooth devices, proceed to your Entune Multimedia Head Unit on your Toyota vehicle.

**STEP 6**
On your Toyota Vehicle Entune Multimedia Head Unit, Select SETUP BUTTON on the Home Screen.

**STEP 7**
Select BLUETOOTH

**STEP 8**
Select ADD, to add your phone device

**STEP 9**
Back on your smartphone, you can now select your TOYOTA VEHICLE in Bluetooth Settings.

**STEP 10**
Your smartphone is now paired with Entune.

**STEP 11**
Once paired, Entune will attempt to connect audio and contacts on your phone.
